

The Lee Manor community garden participated in the London-wide Capital Growth Edible Gardens Open Day on 3rd September. Over 45 people visited the garden to look around, discuss and compare vegetable growing methods and tips and to take part in activities such as paper pot making, seed sowing and a seed swap. We also harvested summer crops to share.

In mid-September two more raised beds were built in the garden using old scaffolding planks with the help of a local carpenter. The garden group, wielding wheelbarrows and shovels, met in early October to fill the beds with one ton of shingle (for drainage) and three tons of topsoil/compost mix. Many thanks to everyone who helped on the day!
