

Lee Manor Community Garden Equal Opportunities Policy

The Lee Manor Community Garden group will not discriminate against any user of the garden - visitors, volunteers, members or membership applicants - on the grounds of gender, marital status, race, colour, nationality, sexual orientation, ethnic origin, religion, disability, class or age.

We are committed to creating a culture where individual differences are valued and respected. The LMCG group will not tolerate any form of discrimination, harassment or victimisation. We are committed to providing a community gardening environment where no one is disadvantaged.

All committee members, garden members and volunteers are required to cooperate in making this policy work effectively. It is the collective duty of each person to be friendly and fair toward all visitors, members and volunteers. We expect all users of the garden to treat all other users with equality both within the garden group and in the service that the community group provides to neighbours and fellow residents.

Adopted by Lee Manor Community Garden, July 2011
